

MyGAS 2026 

MALAYSIAN GAS SYMPOSIUM

Partner with Malaysia's
Premier Strategic Gas
Industry Forum

Fuelling Malaysia's Next Chapter

The conversations shaping Malaysia's energy future cannot wait.

The global energy landscape is entering a period of profound change.

Geopolitical uncertainty, evolving energy markets, accelerating decarbonisation and rising energy demand are reshaping how countries think about energy security, competitiveness and long-term investment.

Across the world and the region, governments and industry are responding through policy reform, market liberalisation, infrastructure development and stronger regional cooperation.

As Malaysia enters the next phase of its energy transition, the question is no longer whether change is happening, but how it should be delivered.

MyGAS 2026 provides the platform where policymakers, regulators, industry leaders and regional stakeholders come together to exchange perspectives, share practical experiences and help shape the pathways that will strengthen Malaysia's energy future.

- The world is changing.
- Countries are responding.
- Malaysia must deliver.

Malaysia at the Turning Point

The global energy landscape is changing faster than ever.

Geopolitical uncertainty, evolving energy markets, and accelerating decarbonisation are reshaping how countries think about energy security, investment, and long-term competitiveness.

Across the world and the region, governments, and industry are responding through policy reform, infrastructure development, market liberalisation, and stronger regional cooperation.

As Malaysia enters the next phase of its energy transition, MyGAS 2026 provides a timely platform for decision-makers to exchange perspectives, share practical experiences, and identify pathways that strengthen confidence across the energy value chain.

MyGAS 2026 is where global perspectives, regional experience, and Malaysian priorities converge.

The MyGAS Journey

Understand Global Perspectives

Understand the global trends reshaping energy markets and how countries are responding.

Assess Regional Perspectives

Assess from practical implementation across the region and identify lessons relevant to Malaysia.

Deliver Malaysia's Response

Translate strategy into practical pathways that strengthen resilience, investment confidence and long-term competitiveness.

Every session builds towards one outcome: practical pathways to power confidence for Malaysia's energy future.

The Power of Partnering with MyGAS

A trusted platform where government, industry and regional leaders come together to shape Malaysia's energy future.

Policymakers & Regulators

MyGAS 2026 is designed to bring together Malaysia's senior policymakers and regulators responsible for shaping the country's energy future.

Expected participation includes:

- Minister of Economy
- Secretary General, Ministry of Economy
- Energy Commission (Suruhanjaya Tenaga)
- Senior government officials

International & Industry

The symposium also convenes industry leaders and international organisations to exchange practical experiences and strengthen regional collaboration.

Expected participation includes:

- International Gas Union (IGU)
- ASEAN Centre for Energy (ACE)
- National gas associations
- Regional and local industry leaders
- Financial institutions and investors

One platform. One conversation.
The organisations shaping Malaysia's energy future.

One day. One venue. One ecosystem.

About MGA

Established in 1986, the Malaysian Gas Association (MGA) is the nation's leading industry association representing the interests of the Malaysian gas sector across the entire gas value chain.

Today, MGA comprises more than 150 member organisations, bringing together producers, infrastructure operators, utilities, technology providers, service companies, academia and other stakeholders committed to advancing a secure, competitive and sustainable gas industry.

Beyond industry representation, MGA serves as a trusted platform for dialogue between government and industry, fostering collaboration, supporting policy development and promoting knowledge exchange at both national and international levels.

As a Charter Member of the International Gas Union (IGU) and Regional Coordinator for South & South East Asia, MGA continues to strengthen Malaysia's position within the global gas community.

MGA at a Glance

- 40 Years Supporting the Industry
- 150+ Corporate Members
- Established in 1986
- Regional Coordinator for South & South East Asia
